

BIANCO

BS BAKELITE RANGE

Energizing Lives In Style & Safety

Built to British standard in a state-of-art factory using high engineering standards.

Bianco switches are elegantly designed and easy to assemble.

The front plate is curved at edges, simple and noble in looks.

The switches contact are made of High Quality Silver Alloy which has outstanding performance against electric arc.

Rockers can perform 40,000 On / Off operations.

The metal contacts of socket are made of Phosphorus Bronze which has character of good electrical conductivity.

* Subject to terms and conditions stipulated by the company.

Tested & Certified by

In Pursuit of Excellence.

Quality assurance practices & commitment to deliver quality products & services

>>

Glow wire test

Socket - normal operation test

Dimmer regulator - life test

Material - ball-pressure test

Switch - high voltage test

Switch - normal operation test

Switch - temperature rise test

Socket - guage test

Technology which Cares.

Making Workplace Safer:

MAXIMUS strive and adhere to best practices & guidance to customers on complying with relevant regulatory safety standards, encouraging a more professional approach and improved services for safety.

Relevance, Functionality & Performance:

MAXIMUS business philosophy drives us to respond to our customer requests of higher efficient products built strictly on international accepted standards and designed for better performance for today and future.

GREEN INITIATIVE

Eco friendly Products & Going Green:

MAXIMUS insists on "Going green" which means to pursue knowledge and practices that can lead to more environmentally friendly and ecologically efficient products. We essentially use environmentally-friendly plastic / metal components that are biodegradable and low in toxicity & help protect the environment and sustain its natural resources for current and future generations.

Elegant style ensuring Safe Living for Years
